Objectives

In today's digital world, online payment can mean convenience to consumers and businesses. Yet, there are many hazards that we need to look out for. After all, problems can develop as quickly as someone clicking on a link in the website or an email. With growing numbers of online shopping and financial transactions, there are new opportunities for cyber criminals. How can we be sure that online payment will be processed in a secure way? The trainer can share with the participants his professional experience and insight on online payment security.

Programme Outline

- Overview of online payment technology
- Online payment challenges and case studies
- Security considerations in the online payment environment
- Best practice of online payment security
